- Select a unique identifier 1.
- 2. Select the version of firmware for the devices to update
 - This works best if they are all the same firmware version
- **3**. Search for "ACEmanager password" and select

Click the "generate" button to generate your template

Apply setting (CSV)		\odot
Apply a setting with different values for each System.	on	tin progress
Step1: Generate your template	on 🛌 🔤	10 days ago
Select how to identify them, then select the setting to change and download a prepopulated template	s) data 🔤 🔤	a month ago
Identifier Serial Number -	stem	a month ago
Setting ALEOS RV50 LWM2M (4.9.0.040)	(All »)	
ALEOS > Admin > Change Password > ACEmana 💌	🚓 🖑 🛃 🔅	- D
6 Download your template		
Step2: Update CSV and finalize	Showing 1 to 12 of 12	entries
Once you have downloaded the template CSV file (id,setting), update the file with new values for each System and	5 Custom -	
upload it.	Kiosk Ph	
Values + Select a CSV 5	Export System(s) data succ	eeded ×
	1 Custom -	
Advanced settings 🔹 🔹	Export System(s) data launo Abort	ched ×
	0 Kiosk Ph 😶	Your feedback

- 4. The system will launch an operation to generate a CSV file
- 5. The green banner will indicate success
- 6. Click "Download your template" to download the csv file

7.
