INS Web Site

Site Features

Customer Specific Information

Visitors can log in to view customer-specific pricing, track orders and view purchase history.

Product Details

Information includes comprehensive product descriptions, specification sheets, related product links and inventory status.

Multiple Employee Access

Access can be provided to any number of designated company contacts to use the INS web store.

Product Specifications

Visitors can view, download and print product specification sheets to verify products meet their requirements.

Net 30 Payment Terms

Qualifying customers can pay for purchases with "Net 30" payment terms in addition to credit card payment options.

Review and Checkout

The shopping cart allows customers to review or modify selected items, link back to product details or remove items.

Security

The INS web store uses state-of-the-art real-time credit card processing with multi-level fraud protection.

Site Navigation

Updated navigation allows visitors to quickly and intuitively navigate to products, services and training options.

Status/History

Customers can check inventory status, track order shipment status and view their order history.

E-mail a Friend

An e-mail option allows friends and colleagues to share product information relating to specific projects or interests.

Search

A robust search engine allows visitors to quickly locate products by searching part number, product category or detailed description.

Customer Support

Customers choosing to become web store users do not forego the expert pre- and post-purchase technical support for which INS is well known.
